SUMMARY

Software Engineering graduate with hands-on experience in web development using Laravel, React, Tailwind CSS, and MySQL. Experienced in API integration, database management, and developing web-based applications. Familiar with React, Next.js, NestJS, and modern development tools such as Git and Postman. Strong problem-solving ability, attention to detail, and effective collaboration skills.

EDUCATION

SMK Amaliah 1 Ciawi

Bogor, Indonesia

Major: Software Engineering

July 2023 – May 2026

- Achievement: Ranked 1st–2nd in class for 6 consecutive semesters
- Academic Score: 87.94/100

WORK EXPERIENCE

PT Matik Creative Technology

Bogor, Indonesia

Full Stack Developer Intern

July 2025 – November 2025

- Developed and optimized web-based application dashboards using Next.js and backend services built with Golang and NestJS.
- Implemented RESTful API integrations to ensure seamless and secure data synchronization between systems.
- Collaborated with a cross-functional technical team using Git to maintain code quality, resolve bugs, and improve overall platform performance.

SMK Amaliah 1&2 Ciawi

Bogor, Indonesia

Back-End Developer

October 2024 – June 2025

- Designed and implemented the system architecture for "AM Agenda Pembelajaran Harian" to streamline attendance and daily learning management using Laravel.
- Optimized database performance and integrated secure user authentication mechanisms to enhance platform stability and user experience.
- Contributed to the front-end web interface using Tailwind CSS and Alpine.js, ensuring a responsive, intuitive, and user-friendly design for both teachers and students.

PROJECTS

Outbound Information Platform

April 2025

- Built a responsive landing page and information platform for outbound activities and promotions.
- Implemented reusable components and responsive layouts.
- Optimized page performance across desktop and mobile devices
- **Tech Stack:** React.js and Tailwind CSS.

SKILLS

Technical Skills: Laravel, React.js, Tailwind CSS, MySQL, Next.js, NestJS, Golang, RESTful APIs.

Software & Tools: Version Control (Git), Postman, Laragon, MS Office.

Personal Skills: Time Management, Adaptive Learning, Team Collaboration, Problem Solving.

CERTIFICATIONS & TRAINING

- Junior Web Programmer Certification – BNSP, 2026
- EF SET English Certificate – C1 Advanced (62/100), 2026
- Intro to Software Engineering – RevoU, 2025
- Learn Basic AI – Dicoding Indonesia, 2025
- UI & UX Competition Participant – CROWD IT, 2024
